## Utility Project Information

To be completed by the Engineer of Record (EOR)/EOR Rep. and E-Mailed to UtilEng@cityofpsl.com

Submit this form and attachments in PDF form only.  
Incomplete items may result in the application being returned.

This is an affordable housing project (involving federal, state, or local affordable housing funds). Attach verification.

### 1. Check all Items Submitted:

- A. This form fully completed.
- B. Proof of ownership of the property must be attached. Supply a printout for the property from the Property Appraisers Office or a copy of a Warranty Deed; whichever shows the correct ownership information.
- C. Location map showing street names (8.5" x 11").

Note: Additional information plans and/or documents may be required.

02. Project Name:

03. Plaza Name:

04. Type of Establishment: (Restaurant/Food Service/Daycare must attach Grease Management Plan).

- Restaurant or Food Service
- Medical Facility
- Retail Store
- Business Office
- Other:

05. Structure:  Existing  Proposed Square Footage:

06. Property Location:  Within PSL City Limits  Unincorporated St Lucie County  
 Other:

07. Property Address:

(include city, state, zip)

08. Legal Description: Lot:  Block:  Section:

Other (Attach additional sheets if necessary.)

**09. Property Tax ID Number(s):**

3414-501-3810-100-1		

**10. Property Owner:**

Name:  Title:

Company Name:

Mailing Address:   
Street Address

City State Zip

E-mail Address:  Telephone:

**11. Owner's Agent:**

Name:  Title:

Company Name:

Mailing Address:   
Street Address

City State Zip

Email Address:  Telephone:

**12. Engineer of Record:**

Name:  Title:

Company Name:

Mailing Address:   
Street Address

City State Zip

Email Address:  Telephone:

**13. Account Name & Billing Address:**

Name:  Title:

Company Name:

Mailing Address:   
Street Address

City State Zip

Email Address:  Telephone:

**14. Type of Service Requested:** (Check Appropriate Boxes)

	Water	Wastewater	Fire Protection	Existing Irrigation
Existing:	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Proposed:	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
Reclaimed Irrigation Water Desired?		<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	

**15. Water Service:**

Water Meter Size	Indicate the Number of Meters in Boxes Below								ERCs
	5/8x3/4"	1"	1 1/2"	2"	3"	4"	6"	Other	
No. of Existing Meters									
No. of New Meters		1							1
No. of New Meters		1							1
No. of New Meters									
No. of New Meters									

Regardless of ERCs determined for flow calculations, each meter installed with this project shall reserve a minimum of 1.0 ERC.

Total No. of ERCs Requested:  (1.0 ERC=250 gal/day)

**16. Fire Protection Capacity:**

Indicate the method of fire protection your project requires:

- 1. Existing Fire Hydrant(s)
- 2. Fire Sprinkler System served by  inch fire line(s).
- 3. Private Fire Line
- 4. Fire Hydrants Required within Road Right of Way
- 5. Not Applicable

## GUIDELINE FOR ESTIMATING COMMERCIAL PROJECT FEES

Inquiries regarding applications for service, or other questions regarding service for existing or new commercial accounts should be directed to the Utility Engineering Division at the City of Port St. Lucie Utility Systems located at 121 Port St. Lucie Blvd, Building B, 2<sup>nd</sup> Floor. You may call (772) 323-7845 for an appointment.

### DEFINITIONS:

**ERC** – Equivalent Residential Connection. (1 ERC equals 250 gallons per day of potable water use.)

**ERC Determination Table** – Is a guideline adopted by City Council for estimating the ERC value for commercial developments.

**Fixture Unit Method** – Fixture Units are based and listed in the Florida Building Code, Plumbing section.

**Water & Sewer Connection Charges** – Charges are calculated per ERC.

**Processing Fees** – A processing fee is required for all commercial service or development applications.

**Inspection & Plan Review Fees** – Fees are calculated on the maximum total ERCs (water or sewer). If no ERCs are applicable, fees are based on the linear feet of pipe and number of lift stations.

**Sewer Grinder Fees** – The Utility Department may approve a low pressure/low flow system design incorporating a grinder pump station.

\* A 3-phase duplex grinder system is typically used on conjunction with the City's low pressure sewer system.

\* A single-phase duplex system is typically only used with a single building structure, with very low flows (4.0 ERCs/1,000 GPD or less), connection to a low pressure force main system and only domestic wastewater flows (no food service, commercial laundry, etc.). This system is only allowed with specific written approval by PSLUSD.

Each system design is site specific and is determined once applicable service applications and plans have been submitted for utility review. Applicants must retain a professional engineer to design the system in accordance with the City of Port St. Lucie Utility Systems Utility Standards Manual and applicable regulatory agency standards.

PSLUSD can supply the single-phase duplex grinder system for purchase only, if approved. The package includes basin, pumps, and electrical control panel and can be picked up at the PSLUSD warehouse.

A licensed contractor retained by the developer must supply all other miscellaneous materials and labor costs to install single-phase systems.

For 3-phase systems, the developer or applicable licensed contractor is responsible for obtaining the grinder system from an authorized pump representative.

**Monthly Billings:** The monthly usage bills for properties located outside of the City limits are surcharged 25%. All monthly bills receive a surcharge of 6%.

**Equivalent Residential Connections (ERCs)** can be estimated using the following three methods.

- \* (ERC) Determination Table per City Code section 61.11.
- \* Fixture Unit Calculations
- \* Historical Use Flow Calculations

**Guaranteed Revenue Fees** shall be invoiced on an annual basis and are calculated based on the current base facility charge (BFC). The BFC for water and wastewater will be charged per ERC(s) reserved. Guaranteed revenue is invoiced in advance for the calendar year, and credits will be issued for connections during the year.

PSLUSD may assess other fees, as necessary, for unusual or complicated projects.

**See worksheet attached for pricing.**
