RE: Change Narrative for Site Plan Amendment

Please see below for a list of changes to the site plan for this amendment.

Site Plan changes include the following:

- The dog park that was located at the south end of the site was removed and a lift station is proposed in its place.
- The addition of the lift station included an additional transformer and utility runs of force main and fiber optic lines that cross Community Blvd.
- The Dog park was then relocated south across the drive aisle. The dog park sits on top of the PSLUE that provides a sanitary manhole for connection to the property to our south. Approval was obtained from PSLUSD by adding gates to the north and south end of the relocated dog park.
- Storm pipes were relocated out of the lift station area.
- A reduction of 9 standard parking stalls.
- No changes in unit count or building location.

Should you have any additional questions please do not hesitate to contact me at (772) 794-4087.

Sincerely,

A handwritten signature in blue ink, appearing to read "Chris Hollen".
