UTILITY will provide water and/or sewer service upon payment of the applicable connection charges and compliance with the Terms and Conditions listed on the back of this Service Application. The Utility policies provide for a water and /or wastewater plant capacity allocation of two hundred and fifty (250) gallons per day equivalent residential connection (ERC). The Utility will not be obligated to provide capacity of service in excess of the allocation and may require consumer to curtail use which exceeds such allocated capacity. I have read and acknowledge receipt of this Service Agreement by signature below.
